PROGRAMMING HOURS

WORK ALLOCATION

 Everyone has been allocated to a difficult task at least once

 +/- 10% programming hours variance

PROBLEMS FACED (Schedule)

EXPECTATION GAP

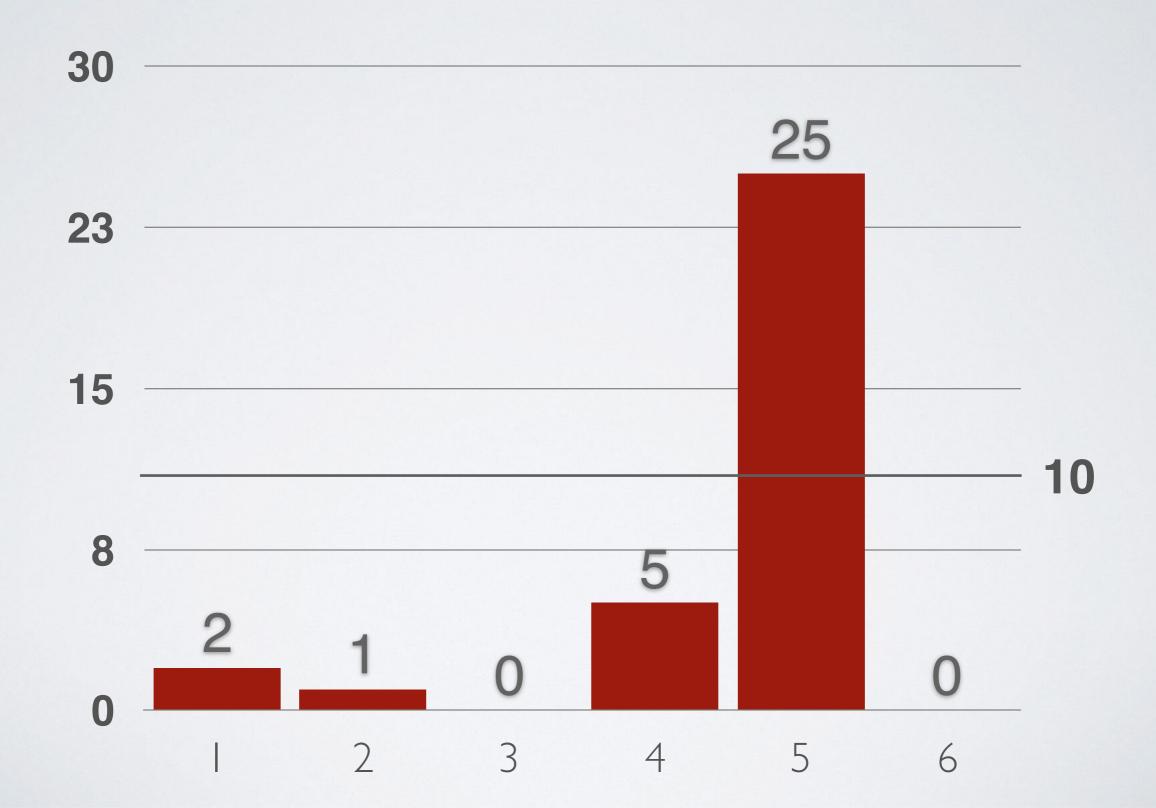

- Expectation Gap (Planned VS Actual)
 - Increase hours across all functions after
 Iteration 1
 - More research hours
 - Matching PP hours for functions with similar difficulty

SCHEDULE CONFLICTS

- Clashing schedules
 - Common free time among pairs
- Running PPs in parallel
 - Git conflicts might arise when pushing
 - √ Pull first before pushing
 - ✓ Inform PP teams of parallel sessions

SCHEDULE & BUG METRICS

BUG METRICS

SCHEDULE METRICS

PROBLEMS FACED

(Schedule Metrics and Bug Metrics)

DELAYING OF ITERATION

 Towards the end of Iteration 2, bug metrics > 10

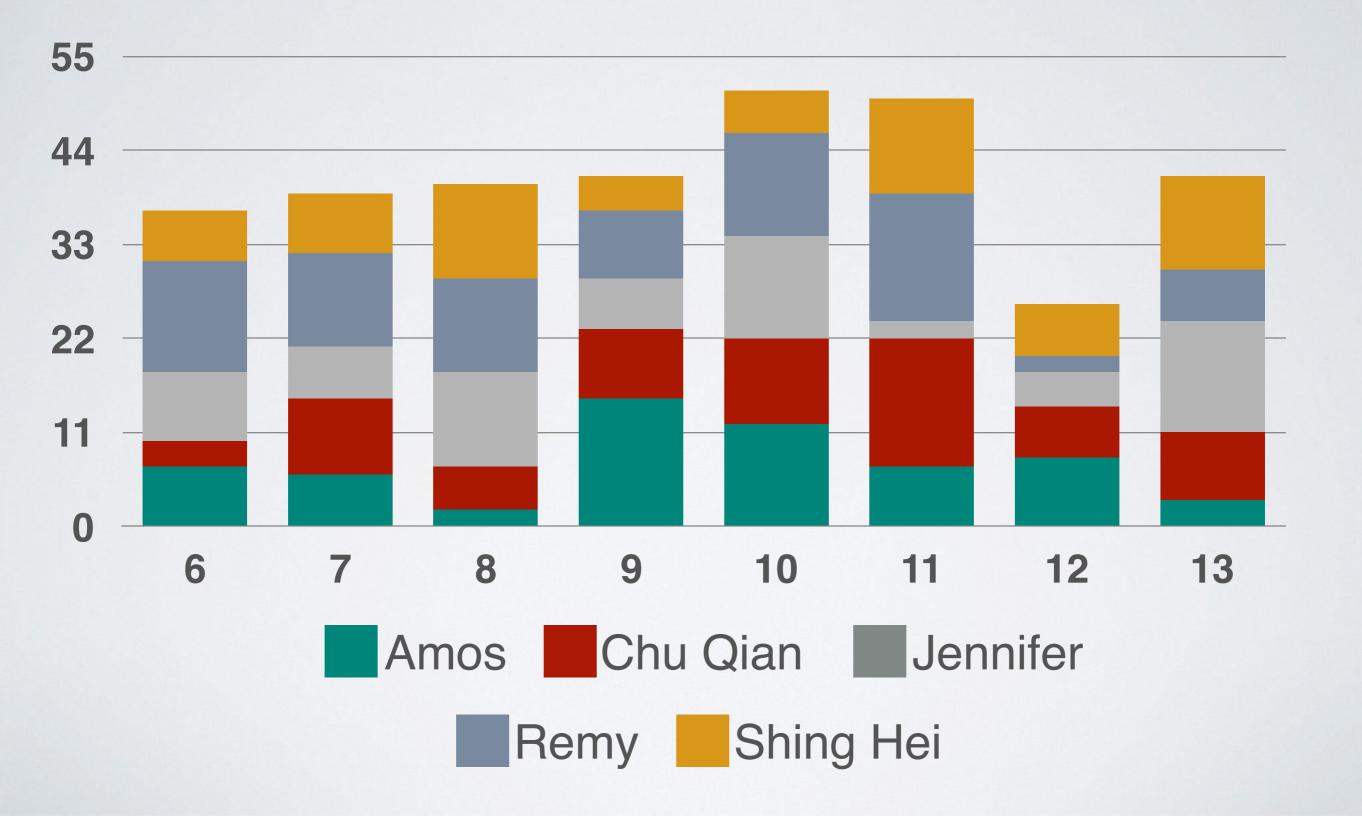

- Delaying iteration to resolve bugs
 - Buffer days taken into consideration

SCOPE CHANGE

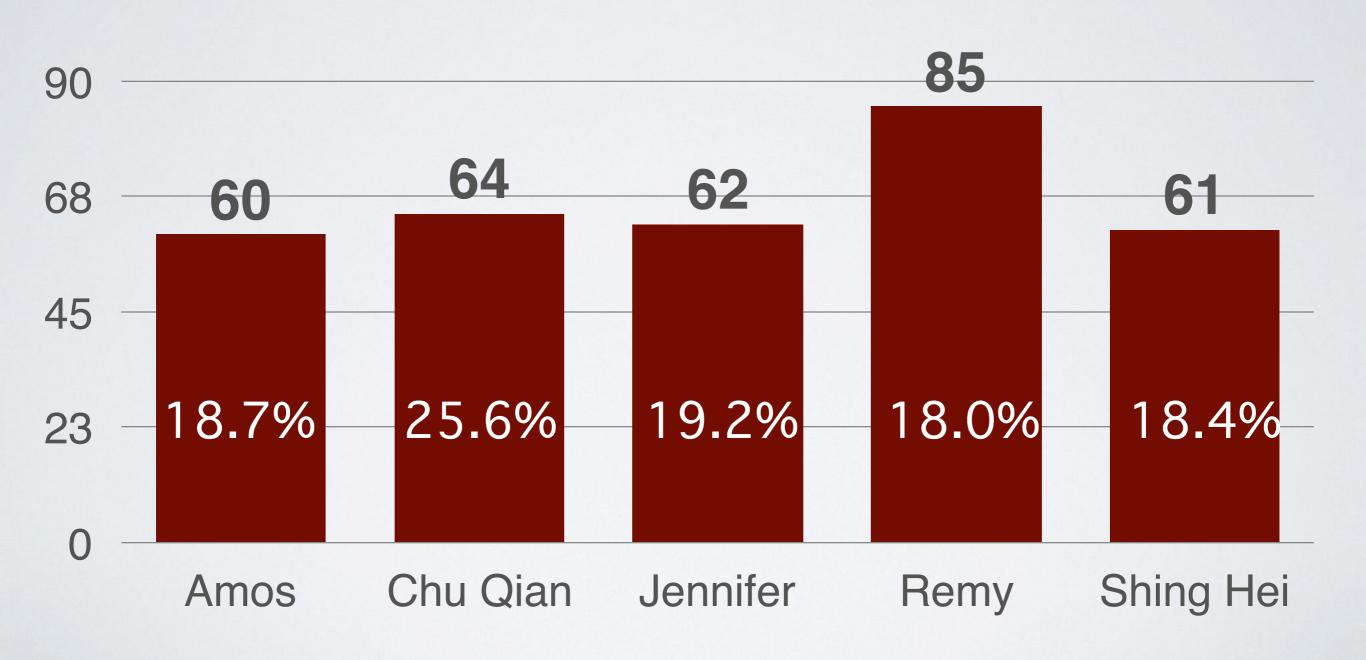

- Scope Change
 - Changes to wiki might cause schedule to be delayed (Feature Boxer)
 - Changes to subsequent iterations' schedules

GIT

GIT COMMITS OVER WEEKS

GIT COMMITS

AUDIT ERROR NO. 1

- · 07/11/2015 @ 01:10
- Due to human error
- Pull was done after editing test cases for excel files
- Merge caused the error to occur
- · No source codes were edited

AUDIT ERROR NO. 2

- · 04/10/2015 @ 23:44
- Occured very early on in the project (Iteration 2)
- Was mainly due to restructuring of folder to shift javadocs to appropriate folder

AUDIT ERROR NO. 3

- · 27/09/2015 @ 17:56
- Occured during Iteration 1
- Due to PPLog being unable to stop
- · Pair was desperately trying to stop the PP Session
- Pair did not select the commit to the app folder as it did not show up on PP Log

MAIN TAKEAWAYS

TAKEAWAYS

- Spring/Hibernate Framework
- Planning schedules
- Adapting to change
- Managing communication
- People management

TEAM CONFLICTS

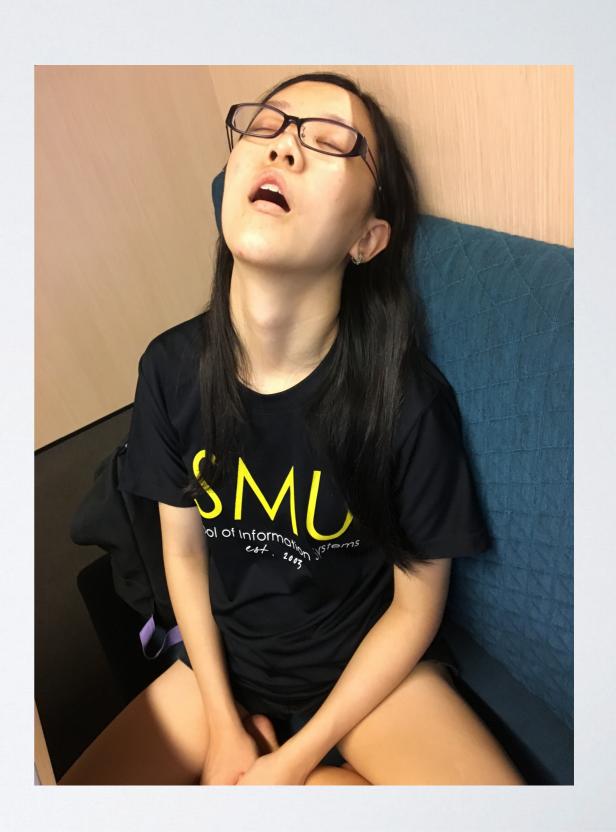

TEAM CONFLICT

- Differing opinions
 - Listen to what each individual has to say and come up with an agreeable solution

INTERESTING THINGS ABOUT OUR TEAM MEMBERS

JENNIFER

- Can sleep anywhere
- Blur

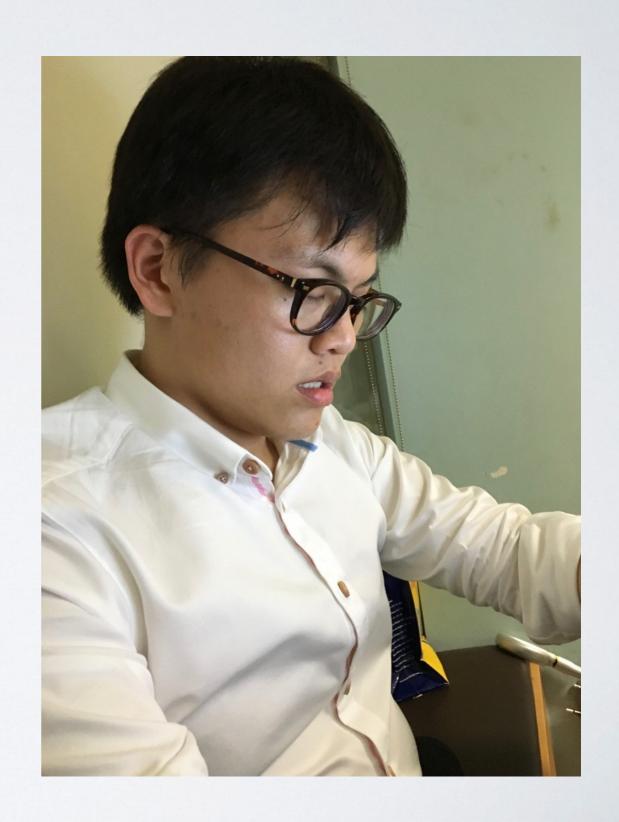

SHING HEI

- Randomly angst
- Pretty cool kid
- Meticulous

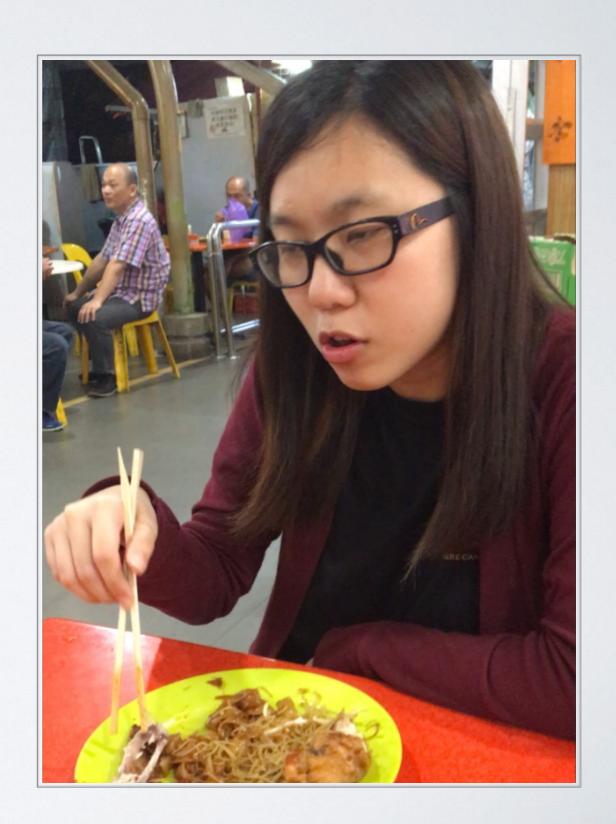

AMOS

Can sleep anywhere

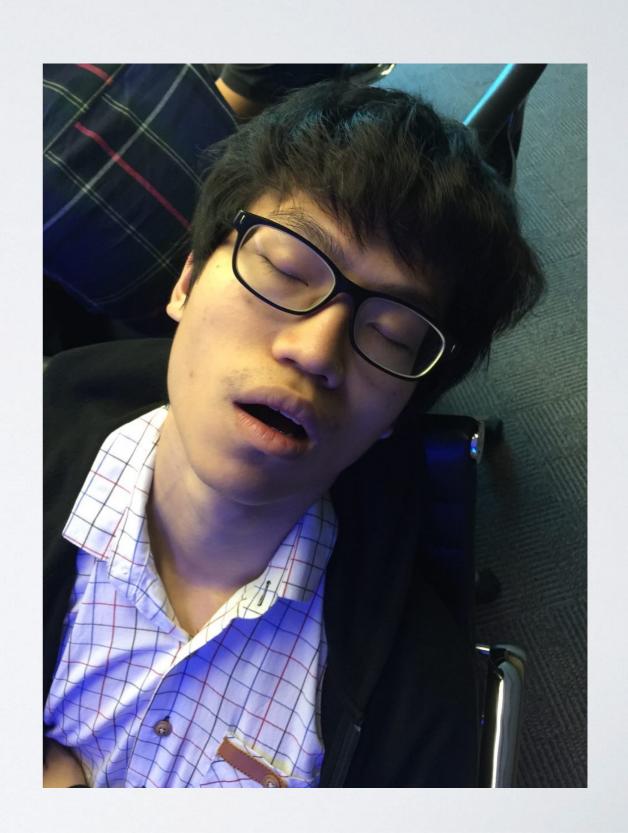

CHU QIAN

- Loves green
- · Loves Koi

REMY

- Can sleep anywhere
- Loves Koi
